
Spring Table

Sir Kenneth Grange and SmithMatthias

Technical

The Spring table is characterised by clarity of form brought about by its honest simplicity and extremely economical use of materials. The leg top detail is carried forward from an earlier collaboration between Sir Kenneth Grange and Smith Matthias (the March chair) and the robust metal bracket is candidly visible, rather than being hidden away. Available in a range of shapes and sizes including nesting versions and soft cornered squares and triangles, Spring comes in veneered MDF with edging and powder coated steel brackets.

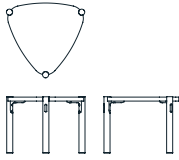

Materials

Top	MDF core with solid oak edging
Legs	Solid oak leg, black stained and clear lacquered finish
