**Pearson Lloyd Edge Soft Seating**  
— Pearson Lloyd

---

## Description

Characterised by clean lines and pared back elegance, the Pearson Lloyd Edge soft seating collection includes a three seat and two seat sofa, armchair, ottoman and bench. The aluminium frame, universal to the entire Pearson Lloyd Edge portfolio, comes in a choice of three neutral colours. New tech-enabled pieces include sofas and armchairs with power modules mounted beneath the frame, perfect for nomadic working and softer break out and reception space seating, simply sit back, plug in and power up. Pair with tables, desks and storage from the collection to create a cohesive interior scheme.

---

## Materials

Seat frame	FSC™ certified spruce plywood, glued and screwed
Foam	CertiPUR certified foam
Frame	Powder coated aluminium
Legs	Powder coated aluminium/ steel with adjustable feet

### Armchair

EDU001 - No power  
 EDU0017 - with POW07  
 EDH0018 - with POW008  
 EDU00117 - with POW017  
 EDU00118 - with POW018

Width: 850 mm  
 Depth: 770 mm  
 Height: 810 mm

### 2 seat

EDU002 - No power  
 EDU0027 - with POW07  
 EDU0028 - with POW008  
 EDU00217 - with POW017  
 EDU00218 - with POW018

Width: 1600 mm  
 Depth: 770 mm  
 Height: 810 mm

### 3 seat

EDU003 - No power  
 EDU0037 - with POW07  
 EDU0038 - with POW008  
 EDU00317 - with POW017  
 EDU00318 - with POW018

Width: 2100 mm  
 Depth: 770 mm  
 Height: 810 mm

### Ottoman

EDU008  
 Width: 1600 mm  
 Depth: 770 mm  
 Height: 435 mm

### Bench

EDB003  
 Width: 1500 mm  
 Depth: 420 mm  
 Height: 480 mm

### Bench

EDB001  
 Width: 1800 mm  
 Depth: 420 mm  
 Height: 480 mm

POW007  
 2 x UK AC

POW008  
 1 x UK AC, Twin USB A+C

POW017  
 2 x EU AC

POW018  
 1 x EU AC, Twin USB A+C

**POW007 & POW008 are undermounted beneath the frame. Standard colour is black.**

— Pearson Lloyd

Pearson Lloyd is an award winning industrial design and innovation consultancy based in London. The studio, founded by Luke Pearson and Tom Lloyd in 1997, offers product design services and strategic thinking in sectors that have demanding spatial, ergonomic and social needs, including the workplace, healthcare, transport and urban environments. With a history of implementing strategic change within these areas, the studio delivers real value to their clients through research-led innovation and industrial design that focuses on practical commercial solutions that are pragmatic, elegant and memorable.

The studio has worked with a range of international clients including InterContinental Hotels Group, Joseph Joseph, Lufthansa, Steelcase and Virgin Atlantic Airways. Over the years, PearsonLloyd has won numerous awards, including the distinction of Royal Designers for Industry by The Royal Society of Arts in 2008 and in 2012 Tom and Luke were celebrated in the top 50 designers Shaping the Future by Fast-Co Magazine in New York.

---

## Frame & legs

Traffic white  
RAL 9016

Black grey  
RAL 7021

Silk grey  
RAL7044

---

## Maintenance

To keep Pearson Lloyd Edge Soft Seating looking its best we recommend regular, gentle vacuuming. Any spills should be immediately blotted with an absorbent cloth. Stains may be tackled gently with a soft cloth from edge to centre but please refer to the care instructions of each specific fabric, some fabrics will mark more easily than others. Any cleaning products must be used with care and in accordance with the manufacturer's recommendations. The aluminium and steel frame may be dusted with a soft brush.

## Environmental Information

Our mission is simple, to create furniture of the highest standards in terms of design, quality and durability that enriches life today without compromising tomorrow. Our products are thoughtfully manufactured in the UK with respect for environmental limits and an understanding of the interconnectedness of a healthy economy, society and environment.

Every piece in the Pearson Lloyd Edge collection is crafted from start to finish in the UK. The Pearson Lloyd Edge Soft seating collection is made using an FSC TM certified, spruce plywood frame. Spruce has a considerably faster growth rate than traditional hardwoods and weighs 33% less, making spruce a more sustainable alternative with no loss of strength. All upholstery and joinery is carried out in our renewably powered, Somerset factory.

## Certification

The Pearson Lloyd Edge Soft seating collection is CertiPUR certified and available with FSC certification on request.

## Material Content\*

■ - Plywood	35.56kg (70%)
■ - Aluminium	8.15kg (16%)
■ - Polyurethane	4.39kg (8.6%)
■ - Wool	2.18kg (4.3%)
■ - Nylon	0.43kg (<1%)
■ - Steel	0.28kg (<1%)
■ - Polyester	0.08kg (<1%)

\*Weights and material percentages have been calculated using EDU001 in Camira, Blazer.

## Sustainability

### Approach

We take a broad and holistic approach to sustainability, considering every aspect of a product's footprint from embodied carbon, to wider impacts on ecosystems and society. Our Sustainability Policy, which can be seen on our website, targets six key areas: reducing carbon, protecting habitats and resources, minimising waste, making healthy products, reducing our plastic footprint and giving back to our local community and wider society.

Our corporate social responsibility programme has a particular focus on the designers and craftspeople of the future.

Our furniture is hand crafted in Somerset using 100% renewable energy. We are a Carbon Neutral Plus organisation.

Our products can help gain credits under environmental assessments such as WELL, BREEAM, LEED and SKA rating, speak to our team about your sustainability goals at [sustainability@modusfurniture.co.uk](mailto:sustainability@modusfurniture.co.uk)

### Design

We take a circular approach to product design, designing furniture that lasts and can easily be repaired and disassembled for multiple lives in use. At end of life, our furniture may be taken back for remanufacture and given a new lease of life. Materials and processes are carefully considered so that we can manufacture products with the lightest footprints.

### Materials

Dematerialisation is a key consideration, we aim to create the best products from the fewest resources, using renewable materials or materials that are part of a continuous loop. We rigorously design out waste and limit and avoid the use of potentially harmful substances and the creation of VOC emissions, keeping our products as healthy as possible. We use CertiPUR certified foam and low VOC emitting, water-based lacquers. We hold FSC chain of custody certification and can offer the vast majority of our products with FSC certification. We aim to use materials with the highest recycled content and those that can be readily recycled.

### Production

All upholstery and joinery is manufactured in our Somerset factory using 100% renewable energy. Manufacturing in-house helps keep furniture miles to a minimum. We use a combination of digital technology and hand-crafted techniques to produce durable furniture of the highest quality.

For every ten products we supply, we pledge to plant a tree, reforesting once forested land with native, broadleaved species as part of our ReForest scheme, which will provide biodiverse habitats where wildlife can thrive, and capture carbon for years to come.

### Packaging & Distribution

We aim to keep our plastic footprint to an absolute minimum across all operations of our business. Our most significant area of impact is packaging. We are phasing out all plastic, gradually replacing plastics with bio-based, compostable alternatives. If you would like your order delivered packaging free please talk to our team.

We are yet to transition to an all-electric fleet, until then we aim to minimise delivery miles by careful planning and we are choosing to offset these emissions with reforestation projects.

### Life in Use

We view our products as material banks for the future and would like to see them used over multiple lifetimes before being stripped into their individual materials for recycling. This means that we offer replacement parts wherever possible, including zip off fabric covers which may be bought separately. If you have any damaged part please take a photo of it and contact us to arrange a replacement.

### End of Life & Producer Responsibility

In our journey towards a circular economy we have established an in-house remanufacturing centre, ReWork. If you have some of our products that you no longer use, please contact us to arrange collection and we will remanufacture each piece, retaining maximum value from every part.

### Community & Society

We think carefully about whom and where we buy, and have a clear ethical purchasing policy in line with the ETI and UN Global Compact.

We carefully consider how we can benefit our local community and we have close links with local schools and colleges, donating scrap wood, board and fabric to the Design & Technology departments of four local schools and sponsoring Art & Design awards, young enterprise schemes and local arts organisations. We have active apprenticeship schemes, offer work experience placements and paid internships. We are proud to be an Accredited Living Wage Employer.
